Forecast for Wednesday 28 Jun 2023

Weather: Low cloud expected to shroud the hills for the majority of the day, with drizzly outbreaks of light rain expected through the morning, which may turn to mist and fog at times. Through the afternoon, outbreaks of rain are expected through much of the afternoon which could be heavy and persistent at times, once again perhaps creating some mist conditions at times. This is likely to continue into the evening.

Chance of cloud-free hill tops above 600m: 20%

Low cloud and visibility: Broken to overcast cloud bases expected around 400-500m for the majority of the day, perhaps lowering to 300m in the west. Rain and drizzle will reduce visibility to poor, perhaps very poor at times, especially when rain may turn heavier in the afternoon.

Valley	17/16	18/16	18/17	18/17	18/17	15/15	13/13
Freezing Level*	3700m	3500m	3700m	3600m	3200m	3200m	2900m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Persistent rain and drizzle may make paths slippery. This may create difficult walking conditions and scenic viewpoints will be extremely difficult to see at times.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Wed 28 Jun 2023	2.6mm	2.6mm	2.6mm

Forecast for Thursday 29 Jun 2023

Weather: A much drier and brighter day with some fair weather cloud above the heights of hills. There is a risk of showers, perhaps the odd heavy shower, which may temporarily lower bases to the heights of hills. Otherwise it will be a fine and dry day, though feeling cooler and not as humid than of late.

Maximum wind: Northwesterly winds, 15mph gusting 25mph.

Chance of cloud-free hill tops 600m: 80%

Low cloud and visibility: Cloud expected to be above the heights of hills, with good to excellent visibilities. Cloud and visibility may lower briefly in showers.

Temperature: **Valleys:** Plus 9 degrees Celsius rising to plus 18 degrees Celsius
At 600m: Plus 8 degrees Celsius rising to plus 11 degrees Celsius
Freezing level: Above summits.
